When it comes to myopia control in children who are 8-12 years of age at the initiation of treatment,

MiSight® 1 day

is the ONE for myopia control

MiSight® 1 day is the **one and only FDA-approved*** soft contact lens that controls myopia in children aged 8-12 at the initiation of treatment[†]

MiSight® 1 day
for daily wear

How can myopia control with
MiSight® 1 day benefit your practice?

Learn more at [CooperVision.com](https://www.cooper-vision.com)

***Indications for use:** MiSight® 1 day (omafilcon A) soft (hydrophilic) contact lenses for daily wear are indicated for the correction of myopic ametropia and for slowing the progression of myopia in children with non-diseased eyes, who at the initiation of treatment are 8-12 years of age and have a refraction of -0.75 to -4.00 diopters (spherical equivalent) with ≤ 0.75 diopters of astigmatism. The lens is to be discarded after each removal.

[†]Compared to a single vision 1 day lens over a 3 year period.
